Message from DYS Director Harvey Reed
National Third Shift Workers Day
May 10, 2017

3rd Shift Roll Call at Indian River JCF
In honor of National Third Shift Workers Day, we thank those at DYS who work hard through the night to keep our facilities safe and secure 24 hours a day. From Youth Specialists to nurses and managers, our third shift staff keep alert, while others sleep, to provide services for our youth.

At DYS, we have a total of 105 employees who work third shift at our three juvenile correctional facilities. They set an important tone in the facilities as they are usually the first interaction of the day with youth as well as the last. We appreciate the flexibility and self-discipline they bring to DYS through their service.
While we may not see our third shift staff as often as others, our appreciation goes out to all of those who serve during the late hours, providing a critical service at our facilities. Again, thank you!
